

Friends of the Children-Boston
We are Relentless, So They can be Resilient

OUR MISSION

Impacting generational change by empowering youth who are facing the greatest obstacles through relationships with professional mentors – 12+ years, no matter what.

ABOUT US

[Friends of the Children-Boston](#) (*Friends-Boston*) was built around a simple solution: enter their lives early, provide them with a dedicated, caring adult and stay by their side, no matter what. To that end, we’ve developed a unique and revolutionary model that ensures quality, consistency and commitment to children facing systemic obstacles so that we can make transformational change that breaks the cycle of generational poverty. To achieve this, we seek out and select children facing multiple adverse childhood experiences and trauma, and relentlessly dedicate our resources to them pairing them with a paid professional mentor (Friend) for their entire childhood—from kindergarten through graduation, no matter what. Our high intensity/high impact model, proven through rigorous evaluation, increases graduation rates, and decreases teen parenting and juvenile justice involvement while focusing on the growth potential of each child.
