

Volunteer Tutor Application

This information is kept confidential.

If any of the following information changes, please notify us.

Date: _____

Tutors spend 1-3 hours every week at our office helping youth with homework and building their academic skills. Typically, most students who request tutoring are in grades K-5, and most commonly need help with general math and reading. But, we certainly have older (teen) youth who occasionally need help in more advanced subjects. Tutors work with the same youth every week so that they can build a relationship and develop successful strategies with each student that they work with.
